- Bottomless gourmet coffee from our coffee bar
- Free on-site gym and \$40 a month towards your own gym membership
- Cell phone reimbursement
- Happy Hour on Fridays
- Access to on-site dry cleaning and car detailing
- Team member referral bonus
- Employee Stock Purchase Plan (ESPP)
- Access to the company Segways
- Relocation assistance
- Health Coverage
- Tuition reimbursement and training

EXAMPLES OF INTERESTING PROJECTS

At RetailMeNot, you will work on meaningful projects and be encouraged to innovate in the spirit of positive disruption. Tenacity is in our DNA- we work hard, always think about growth and go beyond the status quo.

Recent projects:

- Mastermind is a scheduler and management system, written in Python, used to orchestrate our data and analytics pipeline and manage tens of thousands of jobs daily.
- Geolocation Campaign Manager helps our retailer partners build location-based marketing campaigns. A PHP-based web application, these campaigns can target RetailMeNot mobile app users in specific locations with particular interests.
- SmartText is a JavaScript widget and Java backend that allows our Content team to quickly and correctly edit titles, descriptions and other offer metadata.
- Looking Glass is a management system for the displays in our Austin Office. Written in Node.js, it registers dashboards and configures displays from a web browser.
