There’s an energy that’s created when smart people gather to do things that will change the world. It’s what inspires explorers and entrepreneurs. And it’s what inspires us at Blackbaud. Blackbaud was founded on the idea that technology can be a medium for social change. Over the last thirty years, we’ve delivered software solutions to the nonprofit sector, helping mission-driven organizations manage operations and engage supporters. We have the satisfaction of knowing that our solutions are making a difference every day, allowing our clients to focus their time and resources on what they do best: changing the world.

Our employees are innovators and difference-makers who are passionate about generating change.
