

Find your future.

At HP, we live for the big idea, the next great discovery. “Invent” is more than a word: it’s who we are. Everything we do, we do to make technology more practical, usable, and valuable to our customers. Want to join us?

## PERKS AND CULTURE

- Competitive compensation
- Performance bonuses
- Health coverage
- 401(k) plan
- Employee Stock Purchase Plan (ESPP)
- Active recent graduate community
- Community involvement
- Teamwork environment
- Inclusive work environment
- Company events and social gatherings

## EXAMPLES OF INTERESTING PROJECTS

- Project Moonshot: HP is taking data center efficiencies to new heights using a revolutionary architecture that consumes 89% less energy, 94% less space, and 63% less cost than traditional systems
- Social Media Analytics: Using science, not guesswork, to show the business value of social media. Using analytics, mathematical and statistical modeling—to extract useful information from social media.
- Nanofingers: A breakthrough HP innovation in nanotechnology, called Nanofingers. Sense, identify, quantify, analyze, and test contaminants in water, food, or air—in real time.
- Business Intelligence Mobility Program: Mobility projects that are designed to deliver key business & operational metrics to our executives anywhere and anytime via mobile devices.
- HP in healthcare: Avoid human error in the health monitoring process—HP is enabling better care in hospital settings with a simple, yet sophisticated and powerful Patient Safety Dashboard
