Distance Learning	
Long Paper Teaching via the Internet: The Impact of the Internet as a communication medium on Distance Learning Introductory Computing Students	1
Linda Carswell	
Short Papers	
Using Multimedia Communication Technologies in Distance Learning Thomás Robles, David Fernandéz, Encarna Pastor and Santiago Alamillo	6
The use of the WWW to support distance learning through NTU	8
Douglas D. Dankel II	
Teaching C++ on the WWW	11
Martin Hitz and Stefan Kögeler	
Computer Graphics	
Long Paper Improving Discrete Mathematics and Algorithms Curricula with LINK	14
Jonathan Berry Short Papers	1
An interactive learning system visualizing Computer Graphics Algorithms	21
Achim W. Janser	
Excel as an algorithm animation environment	24
E. Rautama, E. Sutinen and J. Tarhio A Genetic Algorithms Tutorial Tool for Numerical Function Optimisation	27
E. K. Burke and D. B. Varley	21
Interactive Learning	
Long Paper	
A model for the creation of online courseware	31
Pamela B. Lawhead Shout Pamena	
Short Papers Monitoring and evaluating a redesigned first year programming course	37
Dianne Hagan, Judy Sheard and Ian Macdonald	31
Instructional Software for Closed Laboratories in CS1	40
Mohsen Beheshti and Bill Waller	
Integrating design andsimulation into a computer architecture course Deborah L. Knox	42
Issues and Solutions	
Long Paper	
Cost Effective Multimedia Courseware Development	45
C. J. Pilgrim, Y. K. Leung and D. D. Grant Short Papers	
Teaching Software Engineering and Project Management to 300 Participants without Drain of Quality or Intensity	51
Stafan Riffl and Thomas Grachania	

A pedagogical pattern for bringing service into the curriculum via the web Carl Erickson	54
AlgorithmVisualization / Java	
Short Papers Visual programming with Isyas an alternative approach to introductory	
Visual programming with Java; an alternative approach to introductory programming	57
Frank Wester, Marleen Sint and Peter Kluit Algorithm Visualization on the World Wide Web - the Difference Java Makes!	59
Thomas L. Naps	
Distributed Algorithms in Java	62
Mordechai Ben-Ari	
New Settings for Teaching CS Topics	
Long Paper	
Design and realization of an interactive multimedia server in education	65
K. Coninx, B. Daems, F. Van Reeth and E. Flerackers, Short Papers	
Using a network simulation package to teach the client-server model	71
Michael W. Dixon, Tanya J. McGill and Johan M. Karlsson	, ,
Recursion and Grammars for CS2	74
Viera K. Proulx	
Concurrent Programming CAN be Introduced into the Lower-Level Undergraduate Curriculum.	77
Michael B. Feldman and Bruce D.Bachus	
Computer Mediated Communication	
Long Paper	
Using online seminars to demonstrate the social psychological impacts of com	nuter
mediated communication systems	8(
Jacqueline Taylor	
Short Papers	
International Initiative	85
Anita Jawary, Christiana Birchak and Susan Strack Vargo	
Use of computer conferencing to teach a course on humans and computers	88
Jacob Palme and Sirkku Männikö	0.1
Ethics, Programming and Virtual Environments	91
Michael Houle and Simon	
Assessment and Evaluation	
Long Paper	
Teaching Programming through Paperless Assignments: an empirical evaluati	on of
instructor feedback.	9 ∠
Blaine Price and Marian Petre	
Short Papers	
Computer managed, open question, open book assessment	100
John Rosbottom	

Long Paper Multi-media integrated into CS2: An interactive children's story as a unifying class project. Ursula Wolz, Daniel Domen and Michael McAuliffe Short Papers VIBDAST: A Virtual Interactive Book as a Data Structures Teaching aid 111 Dimitrios Theotokis, George Gystodimos, Panagiotis Georgiadis and George Philokyprou A fantasy adventure game as a learning environment: Why learning to program is so difficult and what can be done about it. Rob Moser CLAP: teaching data structures in a creative way 117 V. Meisalo, E. Sutinen and J. Tarhio Evaluation/Assessment Experience to EnhanceLearning Long Paper CS Student Research Experience Applied to Developing Instructional Technology 120 Dawn Cizma Short Papers WebCT and first year: student reaction to and use of a web-based resource in first year Computer Science 127 Murray W. Goldberg Does Collaborative hypertext support better engagement in learning of the basics in informatics? 130 Pekka Makkonen OBOA model of explanation module in intelligent tutoring shell 131 Ljubomir Jerinic and Vladan Devedzie Distance Education: Systems and Practices Short Papers Distance learning of the management of software projects Marie-Michèle Boulet Panels You Learned All You Need To Design Educational Software Design In Kindergarten 139 Barbara Boucher Owens, Shirley Booth, Marian Petre and Anders Berglund Using Java in Computer Science Education 140 Nan C. Schaller, Michael Bernan, Judith Bishop, Paddy Nixon, Evelyn Rozanski and Peter Welch Working Groups Group 1: Designing laboratory materials for computing courses 143	Innovative Ways to Motivate Students
