

CS395T
Reinforcement Learning:
Theory and Practice
Fall 2004

Peter Stone

Department of Computer Sciences
The University of Texas at Austin

Week9a: Tuesday, October 26th

Good Afternoon Colleagues

- Are there any questions?

Logistics

- Next week: chapt. 10, 11
- Then the TBAs: last chance for requests

Logistics

- Next week: chapt. 10, 11
- Then the TBAs: last chance for requests
 - Something on options (abstract actions)
 - Something showing model learning is useful

Logistics

- Next week: chapt. 10, 11
- Then the TBAs: last chance for requests
 - Something on options (abstract actions)
 - Something showing model learning is useful
- Symposium on real-life RL

Classical Planners

- State-space
- Plan-space
