

# CS313K: Logic, Sets, and Functions

J Strother Moore  
Department of Computer Sciences  
University of Texas at Austin

(Lecture 23)

# Correction

On page 122, in the **Summary** of the  $\exists$ -Hyp rule,

“provided  $v$  is not free in  $\phi$ ”

should be

“provided  $v$  is not free in  $\psi$ ”
