CS343
Artificial Intelligence

Prof: Peter Stone

Department of Computer Science
The University of Texas at Austin

Good Morning, Colleagues

Good Morning, Colleagues

Are there any questions?

Logistics

- Classification assignment due next Thursday

Logistics

- Classification assignment due next Thursday

- Machine learning faculty candidate on Thursday

- Vision faculty candidate on Friday

Logistics

- Classification assignment due next Thursday

- Machine learning faculty candidate on Thursday

- Vision faculty candidate on Friday

- No Berkeley lectures for next week's readings

Pending Questions

- how RNNs calculated?

- k-d trees?

Pending Questions

- how RNNs calculated?

- k-d trees?

- How do determine which datapoints are supports?

- Digit recog - how force 25,000 support vectors?

- when shouldn't you use SVMs? Are there cases when it's "wrong?"

Pending Questions
