

CS378

Autonomous Multiagent Systems

Spring 2005

Prof: Peter Stone
TA: Mazda Ahmadi

Department of Computer Sciences
The University of Texas at Austin

Week 15a: Tuesday, May 2nd

Good Afternoon, Colleagues

Are there any questions?

Logistics

- Final tournament: Friday, May 13th, 2pm, ACES 2.402

Logistics

- Final tournament: Friday, May 13th, 2pm, ACES 2.402
- Final reports due to me on Thursday

Logistics

- Final tournament: Friday, May 13th, 2pm, ACES 2.402
- Final reports due to me on Thursday
- Just one point off if turned in at my office by Friday at 3:30pm

The Tournament

- Mazda and I will start running the tournament in the very near future using your executables

The Tournament

- Mazda and I will start running the tournament in the very near future using your executables
- We'll guard the results with our lives
 - Don't even think of trying to find out...

The Tournament

- Mazda and I will start running the tournament in the very near future using your executables
- We'll guard the results with our lives
 - Don't even think of trying to find out...
- We'll show you the results on 5/13

The Tournament

- Mazda and I will start running the tournament in the very near future using your executables
- We'll guard the results with our lives
 - Don't even think of trying to find out...
- We'll show you the results on 5/13
- Come prepared to (informally) talk about your team for a few minutes

- We may (or may not) have guests

Suggested Structure

- Full round robins in a group of 7 (21 games)

Suggested Structure

- Full round robins in a group of 7 (21 games)
- **OR** One group of 4 and one group of 3 with playoffs
 - Semifinals: 2 vs. 1, 1 vs. 2 → finals, 3rd place
 - 3 vs. 3
 - 4 vs. loser of 3 vs. 3

Suggested Structure

- Full round robins in a group of 7 (21 games)
- **OR** One group of 4 and one group of 3 with playoffs
 - Semifinals: 2 vs. 1, 1 vs. 2 → finals, 3rd place
 - 3 vs. 3
 - 4 vs. loser of 3 vs. 3
- 2 seeded teams?
