Course Recap

• Reinforcement learning theory

• Then putting it to practice
Course Recap

- Reinforcement learning theory
- Then putting it to practice
- My goals:
  - To expose you in-depth to a major area of machine learning
Course Recap

• Reinforcement learning theory

• Then putting it to practice

• My goals:
  – To expose you in-depth to a major area of machine learning
  – To put you in a position to understand current research

- Free pizza (or bagels, or ...)!
Final Discussion

• If you got to choose the research that people in the field would pursue, what would you suggest?
  – What new research would you like to see?
Final Discussion

- If you got to choose the research that people in the field would pursue, what would you suggest?
  - What new research would you like to see?

- Can RL aspire to becoming a general cognitive architecture?
  - Is it useful in connection with psychology and neuroscience?
Final Discussion

• If you got to choose the research that people in the field would pursue, what would you suggest?
  – What new research would you like to see?

• Can RL aspire to becoming a general cognitive architecture?
  – Is it useful in connection with psychology and neuroscience?

• What is your overall assessment of the field of RL?
Surveys

- Please take these seriously!
Surveys

• Please take these seriously!
  – Quantitative results affect my evaluations, whether the course is taught again, etc.
  – Comments help me teach better
