Game Theory Formulations

- Social optimum vs. equilibrium

Game Theory Formulations

- Social optimum vs. equilibrium

- Types of inefficiencies:

  – underprovision, wrong ordering, wasteful surplus claiming

Game Theory Formulations

- Social optimum vs. equilibrium

- Types of inefficiencies:

  – underprovision, wrong ordering, wasteful surplus claiming

- Game iii), why top left isn't an equilibrium?

Peter Stone

Game Theory Formulations

- Social optimum vs. equilibrium

- Types of inefficiencies:

  – underprovision, wrong ordering, wasteful surplus claiming

- Game iii), why top left isn't an equilibrium?

- Game iii) How do they initially suggest matching equilibrium to social optimum?

Game Theory Formulations

- Social optimum vs. equilibrium

- Types of inefficiencies:
  - underprovision, wrong ordering, wasteful surplus claiming

- Game iii), why top left isn't an equilibrium?

- Game iii) How do they initially suggest matching equilibrium to social optimum?

- What's another way?

Game Theory Formulations

- Social optimum vs. equilibrium

- Types of inefficiencies:
    - underprovision, wrong ordering, wasteful surplus claiming

- Game iii), why top left isn't an equilibrium?

- Game iii) How do they initially suggest matching equilibrium to social optimum?

- What's another way?

- Ultimately, they suggest side payments (connection to next week)
