

## Database Lecture 11

### Quiz

1. B - Directed Acyclic Graph
2. C - Standard Python file
3. A - The unit of work is executed by a single operator
4. B - t1 runs first and t2 runs second
5. A - execute

### Demo

Follow the setup sets here: <https://github.com/cs327e-fall2019/snippets/wiki/Airflow-Setup>  
Copy the 4 oscars\_workflow files and 2 oscars\_winning files into a folder called 'dags'  
Run the examples using the 'airflow test' command

### Practice problem - error in 04\_oscars

B - Task is missing from DAG
