At Information Technology Services (ITS), we provide the foundation for IT solutions that enable The University of Texas at Austin community to pursue excellence in research, education, and public service. We support more than 75,000 students, faculty and staff within 17 colleges and schools, 90 research units, 7 museums and 17 libraries – making us one of the largest IT departments in higher education.

ITS seeks to provide outstanding service to our customers, while also supporting our staff with work/life balance, training and advancement opportunities. Our unique Student Career Internship Program (SCIP) gives students a chance to apply classroom learning to challenging real-world projects which opens doors to rewarding careers.

PERKS AND CULTURE

- Tuition reimbursement and training
- Health Coverage
- Retirement plan
- Active recent graduate community
- Teamwork environment
- Creative and casual atmosphere
- Inclusive work environment
- Flexible hours and telecommuting

EXAMPLES OF INTERESTING PROJECTS

- Gain hands-on experience with the latest information technologies and cloud solutions. Support essential services such as UT Mail, UT Direct, and Canvas.
- Provide centralized and distributed support, including technical support and consulting services.
- Support the wired and wireless network, Internet, and Internet2 access via UTnet, the campus computer backbone network.
- Design, deploy, and manage the provisioning, patching, configurations management and monitoring processes for enterprise and managed servers at the university.
- Create websites such as wayfinder.com. Provide content management solutions using Drupal.
