Re: Mr. Hareet Jhutti

I am pleased to recommend Mr. Hareet Jhutti for the CS 5-year Masters.

Hareet took CS 314, Data Structures, from me in Fall 2014. He made good grades in this class, with grades of 90 on the Midterm, 87 on the Final, A's on all programming assignments, good attendance, and a semester average of 94, an A. This put him in the top 15% of the class.

His resume shows several internships doing web development and initiative in doing web app projects.

It is clear to me that Hareet Jhutti will do well in the CS Masters program, and I recommend him highly for admission.

Sincerely,

Gordon Novak  
Professor
