

The Boeing Company is the world's largest aerospace company and leading manufacturer of commercial jetliners, defense, space and security systems, and service provider of aftermarket support. As America's biggest manufacturing exporter, the company supports airlines and U.S. and allied government customers in more than 150 countries. Boeing products and tailored services include commercial and military aircraft, satellites, weapons, electronic and defense systems, launch systems, advanced information and communication systems, and performance-based logistics and training. Boeing has a long tradition of aerospace leadership and innovation. The company continues to expand its product line and services to meet emerging customer needs. Its broad range of capabilities includes creating new, more efficient members of its commercial airplane family; designing, building and integrating military platforms and defense systems; and creating advanced technology solutions.

## EXAMPLES OF INTERESTING PROJECTS

- Boeing has been the premier manufacturer of commercial jetliners for decades. More than 10,000 Boeing-built commercial jetliners are in service worldwide, which is almost half the world fleet. The company also offers the most complete family of freighters, and about 90 percent of the world's cargo is carried onboard Boeing planes.
- Defense, Space & Security is a diversified, global organization providing leading solutions for the design, production, modification, service and support of commercial derivatives, military rotorcraft, satellites, human space exploration and autonomous systems. Driven by the Boeing vision to connect, protect, explore and inspire the world through aerospace innovation, BDS is seeking ways to better leverage information technologies and continues to invest in the research and development of enhanced capabilities and platforms.
- As the leading manufacturer for commercial and defense platforms, Boeing is positioned to provide unparalleled aftermarket support for mixed fleets worldwide. With engineering, digital analytics, supply chain and training support spanning across both the government and commercial service offerings, Boeing Global Services' around-the-clock support keeps our customers' commercial aircraft operating at high efficiency, and provides mission assurance for nations around the world.
