

facebook

Our Mission is to give people the power to build community and bring the world closer together. Our products empower more than 3 billion people around the world to share ideas, offer support and make a difference. Facebook is defined by our unique culture – one that rewards impact. We encourage our people to be bold and solve the problems they care most about. Facebook employees work in small teams that move fast and iterate to develop new products. Together, we help others build stronger communities—and we're just getting started.

PERKS AND CULTURE

- At Facebook, we are constantly iterating, solving problems and working together to connect people all over the world. That's why it's important that our workforce reflects the diversity of the people we serve. Hiring people with different backgrounds and points of view helps us make better decisions, build better products and create better experiences for everyone.
- Discover what makes life at the Facebook company so unique. Our internal groups help people find and build community, and our benefits help them care for themselves and their families. EXAMPLES OF INTERESTING PROJECTS

- Throughout different areas of work, the Facebook company is committed to keeping teams small. This gives people agility and tools to adjust to the changing needs of our business and the world around us. Some of the things we build include the Facebook App, Instagram, Messenger, Oculus, Whatsapp, Portal, Workplace and Novi.
- Develop highly scalable classifiers and tools leveraging machine learning, data regression and rules based models
- Analyze and improve efficiency, scalability and stability of various system resources
- Design and implement software for effective management, automation, data collection, performance analysis, monitoring, alerting and root cause analysis
- Optimize our platform infrastructure to ensure that Facebook and external applications are fast and reliable
- Design and implement extremely high-volume, fault-tolerant, scalable server systems
