

Nutanix is the leading cloud software company disrupting the multi-billion dollar datacenter space. Founded in 2009, Nutanix became a publicly held company (NTNX) in September 2016. Our mission: Make IT infrastructure invisible with an enterprise cloud platform that delivers the agility and economics of the public cloud — One OS, One Click™. At 2,300+ employees around the world, we're the fastest growing infrastructure company and we're just getting started!

## PERKS AND CULTURE

- Health Coverage
- Employee Stock Purchase Plan (ESPP)
- Travel
- Community/social outreach
- On-site free lunch, company events and more!

## EXAMPLES OF INTERESTING PROJECTS

- Project Sherlock - The IoT division has embarked on a major long-term initiative, named Project Sherlock. This goes far beyond our roots in virtualization and storage, and address things like containers, serverless computing, and analytics. They are aimed at a different set of consumers. More and more, you will see us offer interesting things to developers, for example.
