

Quora

Quora's mission is to share and grow the world's knowledge. A vast amount of the knowledge that would be valuable to many people is currently only available to a few — either locked in people's heads, or only accessible to select groups. We want to connect the people who have knowledge to the people who need it, to bring together people with different perspectives so they can understand each other better, and to empower everyone to share their knowledge for the benefit of the rest of the world.

EXAMPLES OF INTERESTING PROJECTS

- Grow user adoption of Spaces — Spaces is a very young product, so it was pretty much an open field to grow user adoption
- Build new targeting features that leverage big data processing to enable advertisers to reach better audiences
- Optimize the backend of our experimentation platform and collaborate with data scientists to add new statistical features
- Improve the speed and reliability of our feature engineering framework
