A Theory of Satisfiability-Preserving Proofs in SAT Solving

Adrián Rebola-Pardo, Martin Suda

TU Wien

FMCAD Student Forum

Austin, USA

October 31st, 2018

Supported by FWF W1255-N23 and Microsoft Research through its PhD Programme

Question what is the mathematical content of DRAT proofs?
[Heule, yesterday]

Question what is the mathematical content of DRAT proofs?
[Heule, yesterday]

- **Semantics** of RAT / PR introduction

Question what is the mathematical content of DRAT proofs?
[Heule, yesterday]

- **Semantics** of RAT / PR introduction
Spoiler: you've been using this all along

Question what is the mathematical content of DRAT proofs?

[Heule, yesterday]

- **Semantics** of RAT / PR introduction
Spoiler: you've been using this all along
- Better understanding of **satisfiability-preservation**

Question what is the mathematical content of DRAT proofs?

[Heule, yesterday]

- **Semantics** of RAT / PR introduction
Spoiler: you've been using this all along
- Better understanding of **satisfiability-preservation**
Truth-preservation under a disguise

Question what is the mathematical content of DRAT proofs?

[Heule, yesterday]

- **Semantics** of RAT / PR introduction
Spoiler: you've been using this all along
- Better understanding of **satisfiability-preservation**
Truth-preservation under a disguise
- Can we generalize satisfiability-preserving techniques to **model-checking**?

Question what is the mathematical content of DRAT proofs?

[Heule, yesterday]

- **Semantics** of RAT / PR introduction
Spoiler: you've been using this all along
- Better understanding of **satisfiability-preservation**
Truth-preservation under a disguise
- Can we generalize satisfiability-preserving techniques to **model-checking**?
Not yet, but we're working on it
