Facing Difference

A Project with Social Impact
In the Spring of 2018,

I organized a campaign across my school district to participate in the Students Rebuild organizations’ initiative called Facing Difference.

After coordination with the principals from each elementary, middle, and high school, I presented the project to classrooms around San Antonio.

The message of embracing individuality and involvement of students from the local community earned over $16,000.
Celebrating Uniqueness
Who We Are Supporting

These pictures give more opportunities to students, just like you, in the South Caucasus, Nigeria, and Sri Lanka.

It will help them to get more supplies for their schools.
How to Participate

Draw a picture of yourself with whichever colors, lines, and styles you choose.
To this day...
this continues to be one of my happiest memories and favorite projects.
