

CS303E Schedule

Fall 2026: Dr. Bill Young

This schedule is very likely correct; dates will change only in the event of extraordinary circumstances. This contains two schedules:

1. The topics for each week of the semester; find the actual slides and videos on the class webpage.
2. Due dates for weekly assignments, projects, quizzes, etc.

The only in-class meetings are on Fridays; these are optional, but you'll receive a small amount of extra credit for attending. You are required to view the videotaped lectures during the week assigned.

Wk	Date	Topics
1	8/24	Syllabus; Lecture 0: Computing
		Lecture 1: What is Python
