CS 312 – Day 1 – Extra Slides
Chand T. John
Don’t cheat – it’s not worth it!

- Better to get a zero on an assignment than to cheat.
- Plagiarism is caught by a special program.
- Penalties for plagiarism, collusion, etc., include failing the class and referral to the Dean’s office which could result in additional penalties like suspension.
- The temptation to cheat happens when you’re under pressure; if this happens, reach out to us and we can try to help you navigate the situation. It’s hard for us to help you if you start on assignments late. Start early and ask for help early!
Grades

• Your grade is determined by:
  – 12 assignments – completed on your own, due on Fridays
  – 13 quizzes in Monday discussion sections
  – NO EXAMS!
Fabric patterns

Write a Java program using just `System.out.println` statements that prints this brick pattern to the screen.
public class Cs312 {
    public static void main(String[] args) {
        System.out.println("========== ========= ========= =========");
        System.out.println("==== ========= ========= ========= ====");
        System.out.println("========== ========= ========= =========");
        System.out.println("==== ========= ========= ========= ====");
        System.out.println("========== ========= ========= =========");
    }
}
