

1. Complete the midterm. Your score for any problem will be at least that received on the test; therefore, for example, don't redo problems for which you received full credit. Please remember to hand in your test along with your homework.

Correction to Problem 4: assume that the number of edges $m \geq n$, the number of vertices.

2. Problem 2.12
3. Problem 5.5.
4. Problem 5.6.
5. Problem 12.16.
