EDUCATION

The University of Texas at Austin, Austin, TX

August 2019 – May 2023

Bachelor of Science, Computer Science

GPA 4.0

Relevant Coursework: Data Structures, Intro to Programming (Java), Discrete Math, Intro to Probability and Statistics, Linear Algebra

SKILLS

Technical/Computer Skills:

- Python (Intermediate)
- Java (Intermediate)
- Microsoft Suite

Certifications:

- Python 3 Programming Specialization (University of Michigan)

PROJECTS

Spotify Playlist Downloader:

- Built a playlist downloader using Python which, given a Spotify playlist URI, extracts the playlists titles and downloads their respective music videos from YouTube as MP4s

Math Matrix (CS 314 Data Structures):

- Designed a math matrix program using Java that simulates various matrix operations such as matrix multiplication, addition, subtraction, and scaling

Stock Tracker:

- Programmed a stock tracking program using Python which displays how a stock has performed during a specified time period on a line graph

Movie Watchlist:

- Created a movie watchlist program using Python that takes inputted movie titles and saves data about the movies such as its director, screenwriter, and Rotten Tomato score into a Google Sheet

EXPERIENCE

Crest Foods, Norman, OK

June 2019 – August 2019

Grocery Stocker

- Refilled displays and maintained inventory levels, includes checking products for freshness and damage
- Assisted in receiving product as well as unloading and loading it in the backroom
- Assisted customers searching for specific products and answered any questions they might have
- Mopped and swept floors to ensure the store looked presentable for customers
