CS344M
Autonomous Multiagent Systems
Spring 2008

Prof: Peter Stone

Department of Computer Sciences
The University of Texas at Austin

Good Afternoon, Colleagues

Are there any questions?

Logistics

- Surveys due Thursday

Logistics

- Surveys due Thursday

- Next week's readings posted

Proposals

- Overall, very good!

Department of Computer Sciences

The University of Texas at Austin

Proposals

- Overall, very good!

- I'm going to skip the writing tutorial (for now)

Proposals

- Overall, very good!

- I'm going to skip the writing tutorial (for now)

- My comments in a different pen from Doran's

Proposals

- Overall, very good!

- I'm going to skip the writing tutorial (for now)

- My comments in a different pen from Doran's

- See UT Austin Villa keepaway page for java trainer code

Proposals

- Overall, very good!

- I'm going to skip the writing tutorial (for now)

- My comments in a different pen from Doran's

- See UT Austin Villa keepaway page for java trainer code

- Consider making your own opponents for testing

Proposals

- Overall, very good!

- I'm going to skip the writing tutorial (for now)

- My comments in a different pen from Doran's

- See UT Austin Villa keepaway page for java trainer code

- Consider making your own opponents for testing

- Will be stricter on progress reports

UTCS **Department of Computer Sciences**
The University of Texas at Austin

Proposals

- Overall, very good!

- I'm going to skip the writing tutorial (for now)

- My comments in a different pen from Doran's

- See UT Austin Villa keepaway page for java trainer code

- Consider making your own opponents for testing

- Will be stricter on progress reports
  - May reflect side forrays
