

Milestone 2 - 11/6

Announcements

- Midterm grades should be returned by this week.

Reading Quiz

- Q1: A. Map can be used to modify keys and values. MapValues would be useful if you only wanted to operate on the values.
- Q2: B.
- Q3: C. The idea of the max function is similar to the SQL max function.
- Q4: A. Map counts each nested list instead of each word. flatMap should be used instead.
- Q5: A.
