

## CS327E Lecture 7 - Monday 2/15/2016

### Reading Quiz

Q1: Ans = B

Q2: Ans = D

Q3: Ans = C

Q4: Ans = E

### Concept Questions

1. Which base table(s) will be used to answer this query?
  - a. **This is the correct answer**
  - b. This is not the answer because Item is not needed. Everything we need to produce this answer can be retrieved from the orders table.
2. Which base table(s) will be used to answer this query?
  - a. This is not the correct answer
  - b. We don't need both tables
  - c. **This is the correct answer**
3. Which base table(s) will be used to answer this query?
  - a. This is not the correct answer
  - b. **This is the correct answer because it is not known that the column date\_taken decides what table that the record will be in. However this depends on the DBA to make sure that the proper steps are taken.**
  - c. **This is the correct answer because we don't know what table the record will be in so we pull in all the tables.**
4. What data do these two views hide?
  - e. **This is the correct answer because the first view hides salary and the second view hides the execute records.**
