CS344M
Autonomous Multiagent Systems

Todd Hester

Department of Computer Science
The University of Texas at Austin

Good Afternoon, Colleagues

Are there any questions?

Logistics

- Progress reports due in 1 week

Logistics

- Progress reports due in 1 week

- Next week's readings

Logistics

- Progress reports due in 1 week

- Next week's readings

  - Distributed Rational Decision Making
  - Understand trade-offs between different mechanisms
  - Think about what the rational strategy is in each

Repeated games

- Doran's ICML slides

Stochastic Games

- Tutorial slides

Discussion

- How can we apply stochastic games?

Discussion

- How can we apply stochastic games?

- To robot soccer?

UTCS *Department of Computer Sciences*
The University of Texas at Austin

Discussion

- How can we apply stochastic games?

- To robot soccer?

- More useful than single-shot games?

Discussion

- How can we apply stochastic games?

- To robot soccer?

- More useful than single-shot games?
